

NOMBRE DE JOUEURS : 2

**KSAR** 

**BUT DU JEU :** Réaliser la plus longue série de pièces de sa couleur connectées. Les pièces incolores comptent pour les deux couleurs.

**MATÉRIEL :**

- 4 bordures à encaster pour réaliser l'aire de jeu.
- 24 pièces colorées (12 par couleur).
- 6 pièces incolores.

**MISE EN PLACE :**

- Construire l'aire de jeu grâce aux 4 bordures.
- Chaque joueur prend une couleur de pièce et 3 pièces incolores.

**TOUR DE JEU :**

- Chacun leur tour, les joueurs doivent poser une de leurs pièces dans le cadre, soit à plat, soit sur la tranche, soit verticalement.
- La pièce posée :
  - doit être en contact, par au moins 2 de ses faces contiguës, avec le cadre et/ou des pièces (croquis 1 A B C).
  - ne doit pas être en contact avec une pièce de la même hauteur par ses faces (croquis 2), les contacts par les arêtes sont possibles (croquis 3).
  - ne peut pas être placée sur une autre pièce.

**FIN DU JEU :**

- Dès qu'un joueur ne peut plus jouer, la partie prend fin.
- Les joueurs comptent leur plus longue série de pièces connectées (sa couleur + les incolores) par leurs faces, les contacts par les arêtes ne comptent pas.
- Ils enlèvent à leur score un point par pièce incolore leur restant.
- Le joueur ayant le plus haut score gagne la partie.
- En cas d'égalité, c'est le dernier joueur à avoir joué qui l'emporte.

AANTAL SPELERS: 2

**KSAR** 

**DOEL VAN HET SPEL:**

Verwezenlijkt de langste reeks met elkaar verbonden blokjes van je kleur. Kleurloze blokjes tellen mee voor beide kleuren.

**MATERIAAL:**

- 4 te monteren randen om de speelzone af te bakenen.
- 24 gekleurde blokjes (12 per kleur).
- 6 kleurloze blokjes.

**OPSTELLING:**

- Vervaardig de speelzone door middel van de 4 randen.
- Elke speler neemt de blokjes van een kleur en 3 kleurloze blokjes.

**SPELRONDE:**

- Elk op zijn beurt moeten de spelers een van hun blokjes in het kader plaatsen, plat, op de kant of verticaal.
- Het geplaatste blokje:
  - moet met tenminste 2 van zijn aan elkaar grenzende vlakken in contact zijn met het kader en / of andere blokjes (tekening 1 A B C ).
  - mag niet via de zijden (vlakken) in contact zijn met een blokje van dezelfde hoogte (tekening 2), contacten via de randen tellen niet mee (tekening 3).
  - mag niet op een ander blokje worden geplaatst.

**EINDE VAN HET SPEL:**

- Zodra een speler niet meer kan spelen, eindigt het spel.
- De spelers tellen hun langste reeks blokjes op (de gekleurde + de kleurloze) die met hun vlakken verbonden zijn, de contacten via de randen tellen niet mee.
- Van hun score tellen ze één punt af per overblijvend kleurloos blokje.
- De speler met de hoogste score wint het spel.
- In geval van gelijkspel is het de speler die als laatste gespeeld heeft, die wint.

**LA BOÎTE CONTIENT :**

4 bordures, 24 parallélépipèdes colorés, 6 parallélépipèdes incolores

**MATERIAL:**

4 borders to join together to make the frame for the game, 24 coloured pieces, 6 uncoloured pieces

**SPIELMATERIAL:**

4 zusammensteckbare Rahmeneile bilden das Spielfeld, 24 farbige Spielsteine, 6 neutrale Spielsteine

**DE DOOS BEVAT:**

4 te monteren randen om de speelzone af te bakenen, 24 gekleurde blokjes, 6 kleurloze blokjes

• Each player takes the pieces of one colour and 3 uncoloured pieces.

• If there is a draw the last one to play is the winner.

• The players must deduct one point for any unplayed uncoloured pieces.

• The winner is the one with the highest score.

• They must deduct one point for any unplayed uncoloured pieces.

• The game ends when one of the players can't play any more.

• The players count their longest series of pieces, including uncoloured ones, joined by their faces. Touching corners don't count.

• It must not touch another piece of the same height by one of its faces (drawing 2) but contact by the corners is possible (drawing 3).

• If the two series have the same height, the one with the most pieces wins.

• The players take turns to place one of their pieces in the frame. It can be placed flat, on its side or vertically.

• Each piece:

- must have at least two of its adjoining faces in contact with either the frame and/or

another piece. (drawing 1 A, B, C)

- it must not touch another piece of the same height by one of its faces (drawing 2) but

contact by the corners is possible (drawing 3).

- must not be placed on top of one another.

#### HOW TO PLAY:

• Construct the frame with the four border pieces.

• Each player takes the pieces of one colour and 3 uncoloured pieces.

#### TO SET UP THE GAME:

• To connect the longest series of pieces of your colour. Uncoloured pieces count as either colour.

#### MATERIAL:

• 4 borders to join together to make the frame for the game.

• 24 coloured pieces (12 of each colour).

• 6 uncoloured pieces.

#### AIM OF THE GAME:

To connect the longest series of pieces of your colour. Uncoloured pieces count as either colour.

#### SPIELZIEL:

Realisieren der längsten Serie an Spielsteinen seiner eigenen Spielfarbe. Die neutralen Spielsteine zählen für beide Spieler.

#### SPIELMATERIAL:

• 4 zusammensteckbare Rahmenstücke bilden das Spielfeld

• 24 farbige Spielsteine (12 je Spieler)

• 6 neutrale Spielsteine

#### SPIELAUFBAU:

• Zusammenstecken der 4 Rahmenstücke, sie bilden das Spielfeld

• Jeder Spieler erhält die Spielsteine einer Farbe sowie 3 Steine der neutralen Farbe

#### SPIELABLAUF:

• Abwechselnd legen die Spieler einen ihrer Spielsteine innerhalb des Rahmens auf einer der drei Seiten ab (flach liegend oder senkrecht stehend)

• Dabei gelten für den abgelegten Spielstein die Regeln:

- Er muß mindestens mit 2 seiner angrenzenden Flächen entweder den Rahmen oder einen/ mehrere andere Spielsteine berühren (Zeichnung 1 ABC).

- Er darf mit den angrenzenden Flächen nur Spielsteine unterschiedlicher Höhen berühren (Zeichnung 2). Berührungen nur über die Eckkanten sind erlaubt (Zeichnung 3).

- Er darf nicht auf einen anderen Spielstein gelegt werden.

#### SPIELENDE:

• Das Spiel endet, wenn ein Spieler keinen Spielstein mehr ablegen kann.

• Die Spieler zählen die Steine der längsten Serie verbundener Steine der eigenen Farbe + die Steine der neutralen Farbe. Die Verbindung über die Eckkanten zählen nicht.

• Vom erzielten Ergebnis ziehen sie je einen Punkt für jeden noch auf der Hand befindlichen neutralen Spielstein ab.

• Der Spieler mit dem jetzt höchsten Resultat gewinnt.

• Bei Punktegleichstand gewinnt der letzte Spieler, der als letzter einen Spielstein abgelegt hat.
